

ANNUAL REPORTING DEADLINES

The following is a brief summary of typical environmental reports that affect most Illinois industrial facilities.

Annual Hazardous Waste Report

For Large Quantity Generators (facilities that generated more than 2200 lbs of hazardous waste during any one month in 2015).

Due date - March 1, 2016

Tier Two Hazardous Chemical Inventory Report

For all facilities that have hazardous chemicals stored above the reporting thresholds. The state insists this report be prepared and submitted to them online.

There are new reporting requirements for this year.

Due date – March 1, 2016

Annual Air Emission Report

For all Illinois companies that have an air permit, to report 2014 air emissions. If you have a Title V (CAAPP) air permit, the Annual Compliance Certification is also due. Companies that are in the ROSS Program do not submit the annual report.

Due date – May 1, 2016

Form R – Toxic Chemical Release Inventory (TRI)

A comprehensive annual report that documents the use, manufacturing, and disposal of certain toxic chemicals. **The EPA requires that all manufacturers annually assess** if they have exceeded the reporting thresholds for the previous calendar year; and file a report for those chemicals.

This report must be prepared and filed electronically using the EPA software. The EPA has increased the enforcement for this.

Due date – July 1, 2016

Storm Water Annual Inspection Report

For Illinois companies covered by the IEPA's General NPDES Storm Water Permit.

The permit requires quarterly storm water monitoring and annual reporting.

Due date – June 30, 2016 for many permitted companies

If you are in Chicago, you may have to file the Chicago Liquid Waste Fee, due by Jan. 31, 2016.

As always, our experienced staff is available to assess your situation and to prepare the necessary reports for you. This is our area of expertise, and we prepare these reports for a wide variety of industrial facilities. Please give us a call.
