

March 2011

## AIR EMISSION REPORTING

May 1, 2011 is the deadline for submittal of the **2010 Annual Emission Report**. This is required of all Illinois facilities that have, or should have, an Illinois EPA air permit.

**If you have a Title V (CAAPP) air permit, May 1 is also the deadline for the Annual Compliance Certification (401-CAAPP Form).** The Annual Compliance Certification has significant importance in that the facility's compliance status is to be documented in detail for the previous year.

## NEW AIR POLLUTION REGULATIONS

**Have you kept up with all of the new air pollution regulation changes?**

The Illinois EPA has issued many new regulations in the past year that directly impacts industry in Illinois. This includes extensive revisions to the Volatile Organic Material (VOM) air pollution regulations for the Chicago ozone nonattainment area, for:

- coating of miscellaneous metal and plastic parts
- apply miscellaneous industrial adhesives
- use of industrial cleaning solvents, such as parts washers, wipe cleaning, spray gun cleaning, equipment cleaning and tank cleaning
- printing on flexible packaging, lithographic and letterpress printing
- coating of paper, film and foil
- coating of large appliances

The federal regulations for NESHAPS (National Emission Standards for Hazardous Air Pollutants) set several **compliance or initial notification deadlines in 2010 or 2011 for:**

- Metal Fabrication & Finishing Source - Nine Categories
- Paint Stripping, Miscellaneous Surface Coating, and Autobody Refinishing
- Plating & Polishing Operations
- Chemical Preparations Industry
- Paint & Allied Products Manufacture

**Our professional staff is available to to prepare the Annual reports for your facility or to assess your situation under new regulations.** We have considerable experience in air permits and emissions reporting. We can help you navigate through the increasingly complex air reporting and air permitting requirements.
