**SPECIAL NOTICE
COOK COUNTY LIQUID WASTE REPORT
AND FEE REQUIREMENT**

Industrial facilities located in suburban Cook County are required to submit a Liquid Hazardous Waste Annual Report form by September 1, 2016. This is a new requirement based on a Cook County ordinance that became effective January 1, 2016.

In addition, if the facility shipped 420 gallons or more of liquid special wastes (excluding used oil or medical wastes) to offsite disposal facilities between January 1, 2016 and June 30, 2016, a fee of \$0.02 per gallon is required to be submitted with the report form.

For facilities that did not exceed the 420-gallon threshold, the report form still has to be submitted with no fee payment.

Our professional staff is available to assess your situation and to prepare the necessary report. **We have considerable experience** in preparing reports for all facilities.
